- 1mt of steam a seam 2 lite If you can't get this let me know and I can bring some. (this is a fusible web!)
- A selection of batik cotton fabrics. I like to use earthy brown colours but you could do blues or greens. Keep in mind the trees need to stand out. Jelly rolls are great for this. It gives you a nice range of coordinated colours. Go for ones that go from dark to light. If you have a batik stash bring at least 8 different shades of your preferred colour. You would only need like half a fat $\frac{1}{4}$ of each. If you need help with this send me an email with a picture of your stash and I will try and help you. Email cindy@thetextileartist.com
- Threads
- Cotton thread. I use Signature 40 wt and Aurifil 40wt Threads. 50Wt is OK if that's what you have in your supplies. Please don't buy thread especially for the class if you have a large range in your stash.
- You will need 4 different shades of thread in what ever colour you would like to sew your trees in. If you are having trouble working this out send me a picture of your selection and I will help you. Email to cindy@thetextileartist.com

- So for example if you wanted to do red trees you will need 1 very dark red, 1 medium red 1 lighter red and 1 light pink. So for example this would be Aurifil colours 2435, 2265, 2260 and 1240.
- For Yellow trees I would use Aurifil colours 2360, 2145, 2135, 2115
- For Green Trees I would use Aurifil colours 4026 5018, 1231, 2115
